- Collaborated with team members to deliver projects on time and within budget.

Projects

COMPANY INTEGRATED SYSTEM

Full stack Developer

Description: Developed a robust company integrated system comprising multiple modules aimed at optimizing operational efficiency and enhancing productivity across departments

Key Functions:

- Implemented a streamlined process for recording employee time in/out and managing leave requests.
- Facilitated the IT department in efficiently managing and resolving support tickets.
- Designed modules for organizing and tracking departmental meetings, aiding in progress tracking and updates dissemination.
- Created a system to track employee-submitted documents, enhancing document management and retrieval processes.
- Developed activity notes functionality for the sales department to track team performance and activities effectively.
- Implemented a centralized document management system for publishing and organizing company documents.
- Enabled department-wise inventory tracking, ensuring optimal resource allocation and management.

Technologies Used: HTML, CSS, Bootstrap, JavaScript, jQuery, PHP, and MySQL

REKLAMOKO: STREAMLINED COMPLAINT REPORTING AND MANAGEMENT SYSTEM

Full stack Developer

Description: Reklamoko is a complaint reporting system that assists residents in easily submitting complaints via their computers or smartphones. It also streamlines the process for barangay officials in handling these complaints.

Key Functions:

- Created an innovative system for streamlined reporting and management of complaints within a barangay.
- Developed a user-friendly interface enabling residents to conveniently file complaints via computers or mobile devices.
- Integrated Twilio SMS gateway for sending SMS to the residents.
- Automated the document creation process, improving overall efficiency.

Technologies Used: HTML, CSS, SASS, JavaScript, jQuery, PHP, and MySQL

Certificate

INFORMATION TECHNOLOGY SPECIALIST (HTML AND CSS)
